

Classification of Instructional Programs (CIP) Self Review 2008-2013 for Michigan Secondary Career and Technical Education (CTE) State Approved Program

The "Career and Technical Education State-Approved CIP Program Self-Review 2008-09 to 2012-13" process used by the OCTE requires administrators and instructors of all secondary state-approved CTE programs (both wage earning and Family and Consumer Science) to conduct a self-review of their programs based on key criteria. Based on this self-review, improvement needs for the program are identified and a plan of action is to be developed and implemented. Thank you for your dedication to excellence.

The CIP Self-Review:

- Is designed as a growth experience for teachers and administrators
- Helps ensure program quality
- Identifies promising practices and areas of concern
- Must be reviewed and signed by administrator

The CIP Self-Review SHOULD NOT:

- Be completed for Less Than Class Size Programs
- Be completed for Capstone or Co-op programs

The Technical Review Assistance and Compliance (TRAC) system:

- Provides on-site review of grant recipients/CTE Programs
- Assesses compliance with state and federal laws that govern funding
- Is conducted by the Office of Career and Technical Education (OCTE)
- Provides technical assistance for continuous improvement of state approved CTE programs

Administrator Responsibilities

A Regional CIP Self-Review Summary:

- Must be initiated by the Regional CTE Administrator
- Must be completed annually by the Regional CTE Administrator
- Must be submitted to the Office of Career and Technical Education(OCTE) by JUNE 30
- Must include 20% of the regions state approved CTE programs annually
- Must include a full local review of all CTE state approved programs within a five year cycle to be reviewed locally

Teacher Completion Instructions

The CIP Self-Review:

- Must be completed for Programs with ANY student enrollment entered into the Career and Technical Education Information System (CTEIS).
- Must include original signed copies of the CIP Self-review certification page.
- Must include all necessary evidence as requested and listed on the form
- Must be updated annually
- Must be organized by category

Make one copy of the completed document to keep in your files along with all documentation provided for the program review. Return the original CIP Self Review to your regional administrator. If you need further clarification on this document or process, please contact your administrator or any OCTE program consultant at 517-373-3373. **For wage earning program content questions**, see the Program Resource Guide at www.mccte-fsu.org/ (click on Publications/then Resource Guide/then pathway/CIP program, for FCS go to www.michigan.gov/octe).

Classification of Instructional Programs (CIP) Self Review 2008-2013 for Michigan Secondary Career and Technical Education (CTE) State Approved Program

How to complete your CIP Self Review:

Complete one CIP Self-review for each CIP Program (**note:** Multiple teachers within one program will need to collaborate in preparing the review.)

- **Instructional Staff and CTE Administrators should collaborate** in the completion and collection of evidence for this self-review. Administrators are required to sign the last page of the CIP Self Review (certification sheet).
- **Authorizing Legislation** and relevant reference documents are provided in the left hand column for each criterion. Web sites and State of Michigan policy references are also included in this area. All criteria have been assigned a Priority Level for the continuation of State Approval of the program.
- **Required evidence** is printed in boxes next to each criterion. Written documentation is required for all criteria and should be appropriately identified by criterion area (i.e. CO1, CO2, etc.)
- Signature Page: Must be completed with all information and signatures.
- Examples of required documentation are included in the Program Resource Guide found at www.mccte-fsu.org (Does not apply to FCS)

Priority Findings For On-Site Visits

OCTE has established priorities equating to the importance of compliance to program issues – CO1-C18. Program deficiencies fall into two categories and have been designated as Priority 1 or 2. The appropriate priority designation appears in the left hand column

- Priority 1 – Major Deficiency. A Priority 1 deficiency will require correction and implementation within 60 days of the Compliance Plan approval by OCTE.
- Priority 2 – Deficiency. A Priority 2 deficiency will require correction and implementation no later than one year from the date of the OCTE approval of the compliance plan.

Questions may be answered by referencing the TRAC Manual presented to each Regional Administrator at the Pre-visit TRAC training.

Classification of Instructional Programs (CIP) Self Review 2008-2013 for Michigan Secondary Career and Technical Education (CTE) State Approved Program

Primary Instructor's Name: _____ **Date:** _____

Primary Instructor's E-mail: _____

Primary Instructor's Phone Number: _____ **Extension:** _____

OCTE Program Name: _____

School Program Identifying Name (if different): _____

CEPD: _____ **Program Serial Number (PSN):** _____ **CIP Code:** _____

Contracted Program **Expiration Date of Contract**

Administrator's Name: _____ **Yes or No** _____

Program Building: _____

Program Street Address: _____

City: _____ **State:** Michigan **Zip Code:** _____ **Building Phone Number:** _____

The following items are indicators of compliance with program funding guidelines (CTE Perkins, State Added Cost, Administrative Guide) and program quality. For each item, the established criteria must be fully met. This self-review must be completed by the program instructor(s). Supporting documents/evidence must be kept on file at the program site/location and readily available during onsite review.
