

WHEN SHOULD YOUR CHILD STAY HOME FROM SCHOOL

Protecting your child's health and preventing the spread of illness to other students and staff is your responsibility as a parent. Keep your child at home if you note any of these things.

1. Contagious diseases - Inform the school immediately if your child develops any of the following diseases:

Chicken Pox	Hepatitis	Mumps
Strep Throat	Scarlet Fever	German Measles
Impetigo	Scabies	Lice
Flu	Pink Eye	Ringworm
	Rheumatic Fever	Fifth Disease

2. Elevated temperature (fever). Child must be symptom free for a full 24 hours before returning to school.
3. Vomiting and/or diarrhea. Must be symptom-free for a full 24 hours before returning to school
4. Cold or symptoms of an upper respiratory infection, such as, persistent cough, green nasal discharge, sore throat, and congestion.
5. Suspicious skin rashes
6. Unusual or prolonged seizure
7. Injuries that would make the child uncomfortable

Also, if a sibling is unable to attend their own school program due to not feeling well - please do not bring them with you to MIPP.

THANK YOU SO MUCH FOR YOUR COOPERATION!
