PowerTeacher 2.3 – More of What Teachers Want

With PowerTeacher 2.3 we deliver on our ongoing commitment to address missing features from your legacy grade books while introducing some new ideas that improve the grading experience:

- Notifications of four different types of grade book events:
 - Birthdays
 - Added Students
 - Dropped Students
 - Admin Logins
- Custom sort order & preferred student name
- Option to add new students to the bottom of the class roster
- Add additional columns to track additional student data
- Custom comment bank
- Teacher personal note (not visible to others)
- Send email to parents and students through PowerTeacher
