

# Fundamentals of Inquiry for K - 6th Grade Teachers

This 3-Day training will cover all of the Inquiry Process Standards, Statements and Expectations related to the K-6 Grade Level Content Expectations. Using hands-on experiences and focused reflection, this training will give teachers a thorough grounding in the pedagogy and practice of science inquiry. Participants examine different ways of teaching hands-on science, explore the process skills of inquiry, engage in a full scientific inquiry, and consider ways to include inquiry in their own classrooms. This training utilizes the workshop materials developed by the Exploratorium's Institute for Inquiry.

January 12, 19, 26, 2010

9:00AM – 3:00PM

Registration Fee: \$95.00 (includes lunch & materials)

Ford Education Center at The Detroit Zoo

8450 West Ten Mile Road

Royal Oak, MI 48067
