

# PODCASTING and STORYBOARD

## for K - 12th Grade Teachers

Join in on this exciting workshop emphasizing two technological media—podcasting and storyboards. Both of these media allow teachers and students to share their science messages of learning. The ability to create a complete video production with sound, narration, moving and still images, and interesting special effects is something any student would find exciting. In creating these student and teacher science podcasts and science storyboards, learning takes on a new and heightened importance and focus—something that any teacher should find exciting.

January 20, 2010

9:00AM – 3:00PM

Registration Fee: \$50.00 (includes lunch & materials)

Ford Education Center at The Detroit Zoo  
8450 West Ten Mile Road  
Royal Oak, MI 48067
