

# TECH ED IN THE MIDDLE

## TECHNOLOGY BOOT CAMP FOR MIDDLE SCHOOL EDUCATORS

# 21 THINGS 4 STUDENTS

Are you teaching a middle school technology curriculum?

Are you an educator assigned to teach 21things4students and want to know more about the curriculum and materials?

Is your district using 21things4students to teach 5th - 9th grade technology, but you're not sure what resources are available?

Do you need help developing digital portfolios with your students in Office 365, Google Drive, or Google Apps for Education?

Are you looking to find out how teachers use 21things4students to integrate technology and best practice?

### LEARNING OBJECTIVES

- ✓ Know the curriculum and resources available in 21t4s for use in your classroom
- ✓ Understand how to implement these materials to support the ISTE Standards • Students
- ✓ Make connections between the 21things4teachers and the 21things4students resources for your classroom
- ✓ Transfer the learning into your instructional practice using best practice strategies
