

Web Accessibility Procedure Document

Introduction

Macomb Intermediate School District (MISD) recognizes the importance of making its webpages accessible to all people.

The goals of the Web Accessibility Procedure Document are:

1. Identify and adopt the specific technical standard(s) MISD will use to determine whether online content is accessible.
2. Designate a Web Accessibility Coordinator to coordinate and implement the Web Accessibility Procedure Document.
3. Inform visitors to the MISD website how they can report concerns regarding content accessibility.

Definition

“Accessible” means a person with a disability is afforded the opportunity to acquire the same information, engage in the same interactions, and enjoy the same services as a person without a disability in an equally effective and equally integrated manner, with substantially equivalent ease of use. A person with a disability must be able to obtain the information as fully, equally, and independently as a person without a disability. Although this might not result in identical ease of use compared to that of persons without disabilities, it still must ensure equal opportunity to the educational benefits and opportunities afforded by the technology and equal treatment in the use of such technology.
