

BILINGUAL

PROFESSIONAL DEVELOPMENT OPPORTUNITIES

Su McKeithen Polish, smpolish@misd.net

FOCUS

To provide all educators, who work with English learners, with high quality professional development opportunities that focus on Language and Content Integration Instruction and Language Literacy Instruction. Our professional development sessions will be driven by WIDA Standards and Common Core State Standards. The two standards will be bridge by the Can-Do-Descriptors from WIDA Standards to create differentiating instructions through Model Performance Indicators (MPI). Our goal is to work collaboratively with all educators to enhance English language skills, using academic vocabulary of the content areas of math, science, social studies and ELA. As a result, it will promote equitable access of education for English learners.

NEW TEACHER ACADEMY

PROFESSIONAL DEVELOPMENT OPPORTUNITIES

Joyce Arbaugh, jarbaugh@misd.net
Theresa Hasenauer, thasenauer@misd.net

FOCUS

The Macomb New Teacher Academy (NTA) has been created to provide quality professional development experiences that will enhance your professional growth. At the same time, it can help you meet the state requirements of obtaining 15 days or 90 hours of professional development in your first three years of teaching.

While the design of the NTA is based on national, state, and local research, the topics of the sessions offered each year are selected based on the feedback of participants.

First, second or third year teachers, employed in a Macomb County School District, are eligible to participate in the Macomb New Teacher Academy.

PARAPROFESSIONALS

PROFESSIONAL DEVELOPMENT OPPORTUNITIES

Dr. Grace Velchansky, gvelchansky@misd.net

Focus

The Macomb Intermediate School District administers the ETS PARAPRO ASSESSMENT to anyone wishing to fulfill the requirements of a Title I paraprofessional. The assessment measures the skills and knowledge in reading, writing, and math possessed by prospective and practicing paraprofessionals. It also measures their ability to apply those skills and knowledge when assisting in classroom instruction.

Participants have the option of attending the *ETS ParaPro Assessment* workshop to prepare for the test. All materials and resources are included in the fee for the workshop. The workshop will include the following:

- A general overview of the assessment including what to expect on the day of the test
- Specific content and practice related to the reading, writing, and math portions of the test
- Study skills to prepare for the test
- Materials developed by *ETS* to prepare for the test

This is an optional component and is not required in order to take the *ETS ParaPro Assessment*.

SAFE, SUPPORTIVE AND HEALTHY SCHOOLS

PROFESSIONAL DEVELOPMENT OPPORTUNITIES

Nancy Buyle, nbuyle@misd.net
Mary Lebioda, mlebioda@misd.net

Focus:

The health of a student is linked to their academic achievement. As a result, the focus of our work is on the whole child, with an emphasis on a school-wide approach. It is our goal to ensure that every student is healthy (both mentally and physically), safe, engaged, and supported.

1. McKinney-Vento (Homeless) Increase school staff understanding and identification of students. Provide resources and supports to McKinney-Vento students.
2. Adolescent School Health-Provide staff training on the Michigan Model for Health and HIV Certification.
3. School Nursing-Educate school staff on the importance of Individualized Health Plans for students with health conditions. Provide the associated training.

SOCIAL STUDIES

PROFESSIONAL DEVELOPMENT OPPORTUNITIES

Sean McBrady, smcbrady@misd.net

Focus

New Michigan Social Studies Standards to be approved in 2018 has the MISD Social Studies team focused on helping teachers understand the expected shifts in instruction (emphasis on disciplinary literacy and thinking skills) and make updates to their curriculum and resources. Professional development in social studies will focus on understanding the new standards (Getting to Know the New SS Standards Workshop) and integrating them into the curriculum. The MISD will support this work through sessions with curriculum developers (K-6 MC3, 6-7 GIANTS, 6-12 DBQ Project), sessions on how to integrate literacy instruction (Secondary Disciplinary Literacy Essentials), and sessions on authentic student inquiry (6-8 *Read.Inquire.Write*, K-12 Inquiry Design Model). Engagement at the elementary level will continue to be a focus as well, with sessions on the Giant Traveling Maps and explorations of best practices in K-4 social studies disciplines.

TESTING & ASSESSMENT

PROFESSIONAL DEVELOPMENT OPPORTUNITIES

Dr. Harvey Czerwinski, hczerwinski@mysd.net
Emily McEvoy, emcevoy@mysd.net

FOCUS

College Board Suite of Assessments

The Michigan Department of Education (MDE) has transitioned to using the SAT as part of the Michigan Merit Examination. In April 2018, the state will offer the [PSAT 8/9](#) to freshmen, the [PSAT 10](#) to sophomores, and the [SAT](#) to juniors during regular school hours free of charge. **In spring 2019, MDE will require PSAT 8/9 for 8th graders as part of accountability measures.**

NWEA Suite of Assessments

Through an agreement between the 21 districts within the county and Macomb ISD a variety of professional learning opportunities are offered at the regional level to provide support to implement and utilize NWEA Suite of Assessment data appropriately and effectively across the county. NWEA was recently awarded by MDE to be one of the vendors who will provide the state benchmark assessment, which only strengthens the agreement to continue to provide support to districts.

Using Student Growth Percentiles (SPGs) in Teacher Evaluation

Beginning in 2018-19, student growth and assessment data must account for 40% of the annual year-end teacher evaluation. Also beginning in the 2018-2019 school year, for teachers of grades and content areas measured by state assessments (Gr 3 - 8), half of the student growth portion (20%) of the evaluation must be measured by the state assessments. The state will provide Student Growth Percentiles for all applicable students within a district, however the district will be responsible for tracking which student SGP should be linked to individual teachers and aggregating those SGPs. The ISD will provide support in regard to the district responsibilities.

Macomb Assessment, Accountability, Research, and Evaluation Network (AAREN)

Macomb County AAREN is a county-wide reference group. One of the goals of the group is to provide a safe and creative environment to contribute, receive feedback and encouragement as members implement a complex K-12 assessment system within their districts. As well as, for the entire group to build foundational assessment literacy skills. Another goal of the group is to utilize the results from a quality balanced K-12 assessment system to advance student achievement. Discussions around appropriately utilizing assessments for evaluation and accountability needs will be a focus as well as the usage and implementation of NWEA in a K-12 setting. All members will have the opportunity to contribute to the agenda of each meeting. Members are a leader, at any level, who influences the implementation and usage of K-12 assessment and data within their district.

Ongoing Supports:

State Accountability and Assessment System

The state assessment system is expanding and changing beyond the accountability measures to include initial, extensive and benchmark assessments.

Recently the state released a new accountability index system, which reports the degree to which schools are meeting performance targets in six areas required by ESSA. The areas are student proficiency, student growth, graduation rate, English Learner progress, school quality/ student success, and assessment participation. A school's index value can range from 0-100, with a score of 100 indicating a school has met or exceeded targets in every area and for each student subgroup. The Index System will identify low-performing schools in three

federally required categories: Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support (ATS).
