Camp Description:

If you haven't already, you will create and link your College Board student account to an account at Khan Academy. The advantage of linking accounts is that Khan Academy can then access your previous test scores, like the spring 2018 PSAT 10, to create a tailored practice plan specifically for you. The camp will provide the space, technology and a quiet atmosphere for students to work on their tailored plan. Students will complete about 5 hours of their plan while having fun "brain breaks" in between.

Parents of registered Macomb County students will have the opportunity to attend an informational evening meeting on Wednesday night on August 15, 2018. The meeting will include an overview of the state required 11th grade SAT test, how to monitor your student's progress in Khan Academy, and how to support your student beyond the camp. Students are welcome to attend with their parents.

For more information please contact Lauri Jurcak at (586)228-3492.

*You're eligible for a fee waiver if you say "yes" to any of these items:

- You're enrolled in or eligible to participate in the National School Lunch Program (NSLP).
- Your annual family income falls within the Income Eligibility Guidelines set by the USDA Food and Nutrition Service.
- You're enrolled in a federal, state, or local program that aids students from low-income families (e.g., Federal TRIO programs such as Upward Bound).
- Your family receives public assistance.
- You live in federally subsidized public housing or a foster home, or are homeless.
- You are a ward of the state or an orphan.

Target Audience: 8th grade administrators, counselors and teacher leaders

Morning: MISD consultants will facilitate an exploration of the components of the SAT Suite of Assessments. We will:

- Examine PSAT 8/9 scoring structure and domains
- Identify current instructional strengths and alignment
- Review the assessment structure by dissecting PSAT 8/9 items
- Plan next steps...

Afternoon: College Board will facilitate and provide information regarding school access codes, logistics for administering 8th grade accommodation procedures and questions.

Beginning in 2018-19,

- Student growth and assessment data must account for 40% of the annual year-end teacher evaluation.
- Half of the student growth portion (20%) of the evaluation must be measured by the state assessments for those teachers in grades 4 - 8 teaching ELA and/or math.

The state will provide Student Growth Percentiles for all applicable students within a district, however the district will be responsible for tracking which student SGP should be linked to individual teachers and aggregating those SGPs.

The day will include an overview of the requirements, the implications in the overall effectiveness rating when student growth includes SGPs, and the possible inequities which could emerge across a district. The SGP Educator Evaluation Calculator tool developed by MDE will be highlighted and reviewed.
