

Macomb County GSRP Enrollment Process

- 1) Programs may begin collecting applications in the spring.
- 2) Families that are under 100% FPL must be referred to Head Start.
- 3) Once programs receive confirmation of their GSRP slots from the MISD, you may begin enrolling families below the 250% FPL following the prioritization process (keep in mind that you should continue to leave a few open slots for the neediest families).
- 4) **Beginning August 31 you may begin enrolling over income families.**
- 5) **Children who turn 4 by September 1 are eligible for GSRP. If a child turns 4 after September 1 but before December 1 they may not be considered for enrollment until after September 1.**
- 6) When an out of county child wants to enroll in your program you must contact Kelly Adamek.
- 7) Remember to continue to fill GSRP slots when families leave your program. This should be going on all year to ensure we serve as many eligible children as we can. Open slots may result in a reduction of GSRP funding.
