

MACOMB INTERMEDIATE SCHOOL DISTRICT

High Dosage Tutoring Partnership Accelerating Student Learning

Tutoring is one of the most effective means of lifting student achievement. Research has shown that well-designed tutoring programs can be very effective in improving children's academic growth. Structured tutoring models with high quality implementation allow tutors to personalize learning experiences tailored to specific student needs. The effects of tutoring programs tend to be the strongest among earlier grades.

The goal of the Macomb ISD Tutoring Partnership is to maximize academic potential, build self-esteem/motivation, and ensure the academic success of Macomb County students.

Provide tutors with quality training, student materials, supervision, and ongoing support as they implement instruction with fidelity.
